## PROFILE

I am a hardworking and analytical individual who possesses strong problem-solving skills and a drive to learn new things. I have advanced knowledge in repairing, programming, operating systems, and web development. I am constantly looking to improve myself while growing in the computer science and technology fields.

## EXPERIENCE

- . Freelance Web Developing using JS, Python, HTML, CSS, NodeJs.
- . Implemented CMS systems and e-commerce shopping carts through open source platforms Wordpress.

## PROJECT

*AMDB - Actor/Movie Database* - We has been created as a database to search actors/actresses or movies and be provided with a detailed description, trailer and movie information, and connections to GIFs that are correlated to the searched item to be shared with friends throughout social media.

*<https://github.com/vi3t4lov3/GRP12-The-Movie-Finder>*
